## About M-Collection App

R2S Loan EMI Collection System (R2S LEC) is an advanced platform that streamlines and automates the entire EMI collection process. Through a configurable Web Dashboard and Mobile App, it simplifies case tracking, field collections, legal case management, and OTS (One Time Settlement) approvals—all in real time.

With features like GPS-enabled tracking, digital case records, PTP management, and integrated expense handling, R2S LEC empowers field executives and back office teams to work seamlessly. It supports collections across Home, LAP, Vehicle, Gold, Business, Personal Loans, and Microfinance, making it a complete solution for efficient loan recovery.

**Real-Time**

**GPS-Enabled Tracking**

**Two-Factor Authentication**

**OTS**

**Automatic Updates**

**Integrated with  
expense handling**

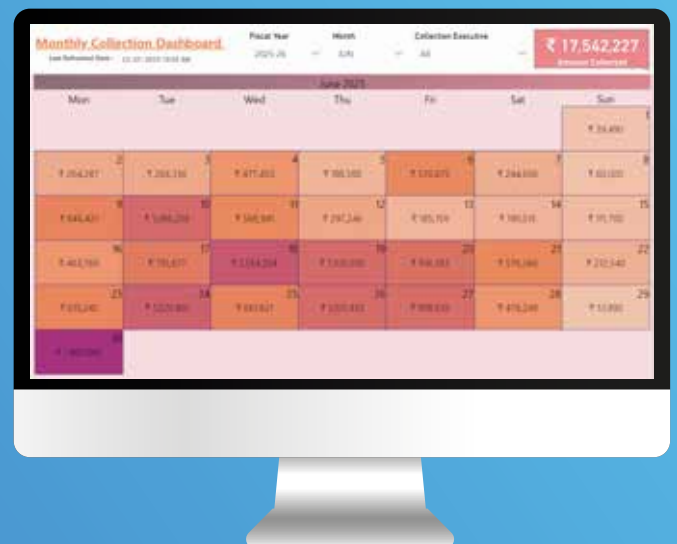

**“Smart EMI collection app with tracking, approvals, legal, and OTS management.”**

## Desktop Web Application

The M-Collection Web Application is the control hub for your back-office and management teams. From any desktop or laptop, you can monitor and manage the entire collection process in real time.

Empower your team with total visibility, faster approvals, and smarter decision-making—all from your desktop.
